Mr. Bachman moved that the low bids of the Mosser Construction Company for the General Contract (\$69,269.00) and for Alternate G-1 (\$1,900.00), the E. W. File Plumbing and Heating Company for the Plumbing Contract (\$9,472.00) and for the Heating Contract (\$3,700.00), and Elam P. Sabroske for the Electrical Contract (\$3,495.00) be accepted and the State Department of Public Works be asked to enter into contract with the low bidders for the completion of the respective tasks. Mr. Schwyn seconded, all voting "yes" on roll call.

The President read a letter from Mr. Linzell, Director of Public Works, advising us to leave intact the old boilers and chimney until the next heating season be ended. Mr. Reams suggested the President advise Mr. Linzell as to our concern as to the stability of the smoke stack and the danger it presents in case it should fall. He further suggested that Mr. Linzell have one of the men from his office visit Bowling Green, inspect the chimney, and report on the condition of it.

There being no further business, the Board adjourned.

Bowling Green, Ohio
November 21, 1950

The Board assembled on the above date, all members present.

The President stated that in the preparation of the budget for the coming biennium we had discovered very serious differences in the salaries paid the members of our instructional staff in comparison with the salaries paid at our sister institutions. He presented the following facts:

1. The average salary of the instructional staff at Kent is \$561.00 above the average salary of the instructional staff at Bowling Green.
2. Bowling Green's instructional cost should be increased by \$139,689.00 each academic year to allow salaries equal to those paid by Kent.
3. The average salary of the instructional staff at Miami is \$481.00 above the average salary of the instructional staff at Bowling Green.
4. Bowling Green's instructional cost should be increased by \$118,969.00 each academic year to allow salaries equal to those paid by Miami.
5. The average salary of the instructional staff at Ohio U. is \$812.00 above the average salary of the instructional staff at Bowling Green.
6. Bowling Green's instructional cost should be increased by \$202,188.00 each academic year to allow salaries equal to those paid by Ohio U.
7. The average salary of the instructional staffs of Bowling Green, Kent, Miami and Ohio U. is \$462.00 above the average salary of the instructional staff at Bowling Green.
8. Bowling Green's instructional cost should be increased by \$115,038.00 each academic year to allow salaries equal to the average salaries paid to all members of the instructional staffs of Bowling Green, Kent, Miami and Ohio U.
9. The average salary of the instructional staffs of Kent, Miami and Ohio U. is \$615.00 above the average salary of the instructional staff at Bowling Green.
10. Bowling Green's instructional cost should be increased by \$153,135.00 each academic year to allow salaries equal to the average salaries paid to all members of the instructional staffs of Kent, Miami and Ohio U.

Other Observations:

1. Bowling Green's low average salary is due to:
 - (a) Large number of staff members on instructor rank at comparatively low salary;
 - (b) Small number of staff members on professional rank at comparatively low salary.
2. Bowling Green is undermanned in the administrative positions as compared with the other State Universities.
3. Bowling Green should be equal to Kent in salaries paid in all ranks, because:
 - (a) These universities were founded the same year and have been in step in their development in all particulars except salaries;
 - (b) Cost of living in Cleveland and Toledo areas are comparable.
4. Bowling Green has had the greatest percentage of increase in enrollment of any of the State Universities. However, the administrative staff has not been geared to this increase, neither has the instructional staff in the professional ranks been geared to the increase. The instructional staff has been built at the bottom - not at the top.
